# Pair your device with a Bluetooth accessory

1. Push power button on Haven Control module.  Red light should come on.
2. On your device, go to Settings > Bluetooth and turn on Bluetooth. Stay on this screen until you complete the steps to pair your accessory.
3. wait for it to appear as discoverable on your device. Select Haven Control Module.  If you have multiple Haven Control Modules you will have to repeat process to select additional modules.
4. Look at Haven Control Module to see if Bluetooth light has come on.
5. Once the Bluetooth light has turned on then go to the Haven App click on the Haven Control module.  This will bring you to your accessories and be able to control them with the slide bars.

# Troubleshoot

- Haven Control Module did not connect to Bluetooth
  - Multiple Haven Control modules?
    - If not
      - Go to settings - Bluetooth and select Haven Control Module
    - If yes
