UNDERDECK

# Haven Underdeck

Haven Underdeck is your source for an all aluminium constructed underdeck ceiling system. We offer multiple options to fit any budget and design – making the space you envision a reality.

Our patented do-it-yourself product line is designed to transform the underside of your deck into a dry usable space perfect for entertaining. From our dimmable LED lighting products to our pest-free screen additions, we work with you to design the perfect patio area for your family to enjoy year round.

Our exclusive DIY Underdeck kits can be shipped nationwide. Pick from a number of different textures and patterns that can be mixed with your choice of any of over 25 different colors.

# Haven Control Module

It gives us great pleasure to announce the release of the Haven Control Module. You may now manage all of your underdeck accessories from your screen, discover how to install and maintain your underdeck system, and examine color and texture options using images of your actual space.

# Set It Up Instructions

1. [Haven Device needs to be on] Push the power button on Haven Control module. Multicolor light should come on.

ON ✓

OFF ✗

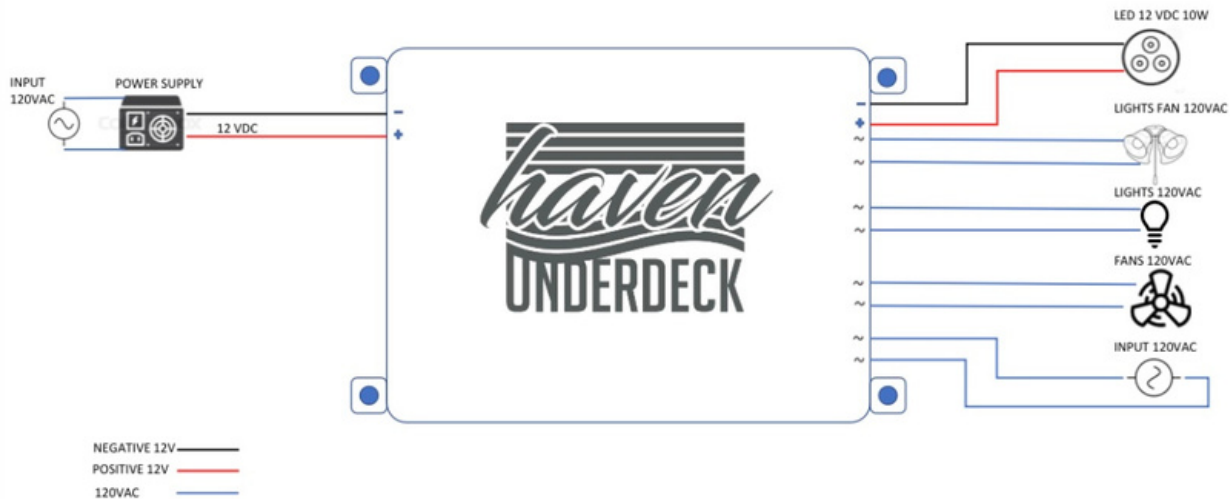

2. On your device, go to Settings then Bluetooth and turn on Bluetooth.

# Set It Up

3. Once your Bluetooth is on, launch the Haven Control Module App, and click on the Haven Control module button.

4. This will bring you to your accessories and you will be able to control them with the slide bars.
